Checklist C1

Required information and documents to apply for a Building Permit

May 2020 Edition

The following list indicates the information required to apply for a building permit. This information assists the building inspector in making an informed decision regarding the approval of a building permit, in relation to the proposed building's compliance, with the standards of the National Building Code of Canada (Code), Provincial Building Regulations and Municipal By-Laws. In addition, the verification of plans and information helps to ensure the occupant's safety while also protecting the owner's investment. Each application is reviewed individually, and as a result, **other plans or documents may be required.**

Except where not applicable to your development , all following drawings and documents must submitted at the time of making application for a building permit and prior to a review being conducted by our office.

General Notes

To scale plans are required before application can proceed. **No “sketches” or “drafts”** will be accepted for plans.

IMPORTANT: The documents and plans required with your application may not be limited to the contents of this list. Each application is individually reviewed. If the plans and documents review raises concerns or questions, related to applicable By-Laws, Regulations or National Building Code of Canada requirements, additional or revised drawings or documentation may be required before an application can be processed. If your application is for a two unit dwelling, basement apartment (secondary suite) or a semi-detached dwelling, further detail regarding fire protection and mechanical systems shall be provided.

If you have any questions regarding the information requested on this list, please contact the *Greater Miramichi Regional Service Commission – Planning Services* using the information provided on Page 1 in the upper right corner.
